

## Upgrade to Filtered Water

Serve cleaner, healthier water where you need it. With an Elkay® universal filtration kit, you can dispense filtered water from any non-filtered water cooler, fountain or bottle filling station. The filters in these kits reduce lead and other harmful contaminants such as cysts, Class 1 particulate and chlorine taste and odor. These versatile kits can be installed with any brand water delivery product and are ideal for use in schools, offices, airports and other public spaces.

## Universal Filtration Upgrade Kits

### Vandal-resistant Box with Water Line Connections

EFW3000	51300C	3,000 Average Usage	Bottle Filling Stations	Lead, Class 1 Particulate, Cysts and Chlorine Taste and Odor

## Vandal-resistant Filtration Boxes

**WaterSentry® Filter:** Includes 1,500-gallon capacity filter.

**Vandal-resistant Enclosure:** Constructed from 20-gauge stainless steel to protect filter and discourage tampering; Torx bit included for added security.

**Mounting Options:** The kit can be installed anywhere near an accessible water line. The box includes conduit punchouts on sides and bottom and an open back for thru-wall plumbing. Vandal-resistant conduit not provided.

**Filter Monitor and Alert\*:** LED filter status monitor and audio alert indicate when filter replacement is needed; available on select model.

## Filter Systems

### EWF172

**WaterSentry Filter:** Includes 1,500-gallon capacity filter.

**Mounting Brackets:** For placement in unit or inside an adjacent cabinet.

**Connections:** Water lines

### EWF3000

**WaterSentry Filter:** Includes 3,000-gallon capacity filter.

**Mounting Brackets:** For placement in unit or inside an adjacent cabinet.

**Connections:** Water lines

## WaterSentry Filters

These Elkay filters are tested and certified to NSF/ANSI 42 and 53 for the reduction of lead, Class 1 particulate and chlorine taste and odor.

## Regular Filter Replacement

Replace filters based on gallon capacity or one year after installation. Replace sooner if water delivery unit is located in a high-traffic area in places such as schools and airports.
