BRAND NEW LOOKS FOR LESS

“I wanted my kitchen refresh to feel **bright and airy** with **clean lines** and **timeless finishes.**”

- Style + Dwell

Painting your cabinets, changing the hardware, updating your faucet, swapping out your drop-in sink and installing open shelving are simple, low-cost ways to freshen up your kitchen and make it feel bigger.

POPS OF COLOR

Rich blues and greens are finding a home in today's kitchens. Apply your favorite bold color to your cabinets, accessories or even color block more than one hue. Add gold or copper accents for an extra touch of luxe.

“Color gives a room, product, or space **personality** without overwhelming the overall design.”

- Elkay Design and Insights Team

HEALTHY HOME

Effective **solutions** to enhance your **safety and well-being** within the home.

- Elkay Design and Insights Team

Hands-free hydrating built in throughout the home and nonporous, quartz sinks in laundry rooms are great ways to support healthy, hygienic lifestyles.

THROWBACKS MAKE A COMEBACK

My goal for our Waco home remodel was to **restore** the home and bring it back to life. We were able to keep the original floors, ceilings, and shiplap. I **mixed vintage pieces with new furniture** and it worked perfectly. The kitchen island is a vintage store counter and I love how it accents our kitchen.

- My One Hundred Year Old Home

Today's modern mixes old and new with sleek lines and vintage accents. Farmhouse sinks, antique steel faucets and novelty décor add charm to contemporary kitchens.
