

ELKAY®

Antimicrobial Copper Sinks

LRAD252255-CU

Tough on Germs

Elkay® antimicrobial copper sinks are tough on germs. They're ideal for hospitals and medical centers, as well as public spaces such as sports and fitness facilities where hygiene is top of mind. They come in an array of sizes and depths, including ADA-compliant sinks, to meet the various needs of your facility.

We start with 18-gauge (1.2 mm) **CuVerro® antimicrobial copper**. Exposed surfaces are blended to a lustrous highlighted satin finish. Our copper sinks also feature **Elkay's Sound Guard®** technology to minimize sound and vibration while at the sink.

Antimicrobial Efficacy

- Registered EPA health claim*
- Kills more than 99.9% of bacteria** within 2 hours
- Supplements routine cleaning and sanitizing
- Continuously reduces bacterial** contamination

Sustainability Features

- Greater than 80% recycled content
- 100% recyclable
- No VOC's or off-gassing

Strong and Durable

- Attractive soft rose color
- Tarnish-resistant finish

Available antimicrobial copper drain and overflow; drains sold separately.

*The use of CuVerro antimicrobial copper surfaces is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. CuVerro antimicrobial copper has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination.

**Testing demonstrates effective antibacterial activity against MRSA, Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, and E. coli O157:H7.
